ANATOMICAL PROTECTION FOR TIPS OF OIL-GEL

A Toe cap in soft oil-gel softens and soothes skin of toes and fingers. Relieves pain from calluses, corns, ingrown toenails, totally absorbs friction and is adaptable to anatomical deformities. The pin-sized hole on the tip allows for transpiration of the toe. Washable and reusable.

Indications: Protects and relieves pain from calluses, corns, ingrown toenails, rough cuticles.

Cod.: S029F
