

## **GEL BUNION TOE SPREADER**

### **HALLUX VALGUS PROTECTION WITH TOE SPREADER**

Relieves pain and allows a correct alignment of big toe. Reduces pressure on articulation of metatarsal phalange. The patent design ensures protection between toes and shoe. The Spreader easily slides into place and permits practical wear. Washable and reusable. Fits both sides.

Indication: Protection for hallux valgus protuberance and all forms of pressure or friction from rubbing forces.
